THE WATER COMMITTEE.

Right of Way for the Pipe Line to be Condemned Bidgers Et o

A special meeting of the water committee was held yesterday afternoon, ten members present II W Lorbett was chosen chairman to serve dur and approved

and approved

A report was read from Engineer Smith giving
in denait what he had done relative to securing the
right of way. This report had been submitted to the sub-committee, who recommended that where therwise not obtainable the right of way be con-dentined. Recommendation adopted the engineer was authorized to continue 4. Oliver as right of way a, eats if he deemed proper more as right of way seem if he deemed proper I down there, a committee of one appointed to core a right of way from the Netthern Facth, a fir and company presented a report stating that a had secured a quit claim deed to a strip of I and II for the way the through all he hands of the other any fir mach which this play line passes consideration 8. The deed has been recorded in Martin A or incontraction was recentled from the Territorian and consideration 8. Castried

A review of the San Francisco market for last

A review of the San Francisco market for last week includes the following. There is no better evidence that trade is in a healthy condition than the movement of freight by steam and sail which is certainly active and merchants with lew exceptions report business good though there is not much speculative activity in any line. The election exclement in this state has its usual effect in diverting attention from mercantile to political matters and merchants have this year laken more than the usual interest in the affairs of state so that the fact I us nevis I reas notly good at such a time is of itself an indeath of prosperity. The changes for the week are unimportant. Case goods are in more steady request and move off at full prices for fruits and vegetables. Salmon is moving off freely the exports being chiefly goods sold early in the season. There is very little in query at present and in its form are nominal. Mail advices from I iverpooler. It a very heavy distributive in evenient which if protonged will force prices by. The market for raw squards duit and prices up. The market for taw sugar is duit at d refined is in good demand at low rates. The coffee market has ruled first with a good demand owing to the rapid advance in the N w vork market. There is a fair den and it of the n'erior which is There is a fair den and i a: the n'error which is supplied entries) by second hands, bales by importers for actual consumption have been very limited atthough one is in his cized out to a special fator its entire to the of toutenals and Costa Rica, consisting of Lattack of toutenals and costa Rica, consisting of Lattack of the former and its of the latter is thus to measily section stocks in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in the lattack in first hands are reduced to so tags to the lattack in first hands are reduced to so tags to the lattack in the lattack

Last Treeday, fire which started from the sparks of a passing locomotive, destroyed in tense of hay, numerous fences and a bayo be longing to H C Cottner. The total last is seemated, at \$7000. Rogers and Williamson Charles McClure, Mrs. Despuin and Cottner are truers.

It is now reported that the detectives have unearthed more and more whelming evidence that Fobler, Tibbets and Lofrey are beyond all doubt guilty of the murder of Willis Skiff, of Union county. The body has not yet been found, but it is thought it will be found soon. It is also now charged, so says report, that still snother man was murdered at that place, and by the same parties, about August 1

TO THE EDITOR OF THE ORROWMAN

The wheat matket is the all absorting tonic in wanter; farmers and sense things in this connection we can't juite understand. Why so much greater disparity this year than formerly between the lortland and San Francisco markets. In Friday's paper we see charters in Portland 40 shillings in San Francisco 36 shillings a difference of about 6 cents per cental and yot there is 16 cents difference in quotations. On account of the impossibility of moving gratic in winter farmers are com ity of moving grain in winter farmers are compelled to store their copy from the harvest fleid either in mills or warehouses on lines of transportation receiving receipts therefor. Now the interession is rapidly spreading that while they are holding these receipts for an advince in the forthand market their who it is being ground by the millers and shipped by the wronisses and loaded in vessels thus supplying the donards while would otherwise keep our market in with San Francisco. Our wheat being group of our possession all we can ask is the market rice and it by thus is ting it, po out of our hands we have a sa philed both millers and exporters as to embe them by combining to give us yest what they please we want to know it, and we ill novor does not not expected. ity of moving grain in winter farmers are con-

price and if by thus is ting it, to out of our hands, we have a an piled both millers and exporters as to enable them by combining to give us just what they please we want to know it, and we ill never do so any more. Looking over the news columns in your weekly, which we farmers get time to do every bunday is an impressed with the changes in manners customs and ideas that have taken place since I was a boy. I see the citrice of one locality are congrutuated on the event of a tax being voted for a free cohod without which a large number of child drem we id grow up in ignorance leaving the inference that neither child nor parent could do anything without the help of the public. Again I see a plea for state and for normal schools to educate teachers.

anything without the help of the prime. Shown a see a piles for state and for normal schools to edu cate to teachers.

Then we are informed that the pendentiary and heans asylum need embargement and I think the subject of embaring your county lail and 1 our farm has been considered recently.

I utting fall this together the natural conclusion is that in the public hold it is the only of the lax payers to inducate teachers support schools and monitain a large and constantly hereasting proper to the population so cared for in these institutions.

The it creasing tendency to hole to the public for everything and henoring all personal respirabilities for ny mind a very schools departure from the good of decisions. There will so he has self in adence in times past.

San I rancisco contains 101 he and she million M retian 00000 veterans have visit d fettys burg d ring the last three years
